

The Other Side

by Ivy Pate Estrada

Does he remember who he was before the other side

Might he choose to look at us from the other side

Are hope and strength in his view on the other side

Is he the same or now transformed on the other side

Has he gained new powers there on the other side

Can he change what happens there, on the other side

Can he change what happens here from the other side

Is early or late better when one gets to the other side

With love and kindness as his base, I trust he's safe in God's embrace

I wonder how he feels now, on the other side
